body massage-her™

waterproof · multi function · rechargeable · elite silicone™

SCALA nr. 22323

She reveled in the feeling of glorious anticipation as she took her body massage-her out of her purse. She loved how it was the perfect size for her to take everywhere with her. So petite and powerful, she smiled to herself as she pressed the button to turn it on. This was her private time and she intended to make the very most of it. She had discovered that these secret solo rendezvous' occupied her thoughts throughout her day. She loved knowing that she could bring herself to orgasm whenever she wished.

She leaned back in her chair and slid the massage up inside her skirt. At first she just enjoyed the smooth sensation of the soft silicone massage-her as she rubbed it against her inner thigh. This was part of her thrill – the anticipation of knowing how good this was going to feel. She pressed the power on and felt the stirrings of titillating vibration begin. She rubbed the massager over her panties, as there was no reason to rush. Why rush her private time?

When she couldn't wait any longer she slid her body massage-her inside her panties and pressed the button to up the vibrations. Yes… there it was. The massage-her had connected with her sensitive clit and she was beginning to feel an incredible warmth spread throughout her body. Her heart fluttered and she could feel her pulse quicken as she gently rubbed her massage-her against her swelling bud. Once more she pressed the vibration button. Ahhhh…. Her head swung back and a gasp escaped her lips as a sensual wave of incredible pleasure pushed her closer to her climax. She wanted to wait and ride this feeling for as long as she could. And then, slowly, slowly, her orgasm rolled from her depths, curling her toes and giving her skin exhilarating goosebumps. Gradually she returned to her senses and relished in her feeling of complete relaxation and utter satisfaction. Now she knew she could face anything her day brought her way.

It's all about Her.

tease n' please-her™

SCALA nr. 22324

Length: 6.5" (16.5 cm)
Width: 1.75" (4.4 cm)
Depth: 2" (5.1 cm)

She slowly slid down her panties and laid back on the bed. Finally. This was her time. She had been fantasizing about using her tease n'please-her all day. She turned it on and tried to decide if she should play with the vibration or suction first. Vibration. Yes, she nodded and pressed on the vibration button to start. She stroked herself from her sensitive clit through her swelling lips and down to her moist vagina with the trembling tip of her tease n'please-her. She pressed the vibration button again to intensify the stimulation. Ahhhhhh, she closed her eyes as she felt herself getting wetter and wetter in response to the arousing vibration. She pressed again and again to enjoy all 12 vibration patterns between her lips, and then slowly slid the tip into her yearning vagina.

She opened her heavy-lidded eyes that reflected the euphoria she was enjoying and cupped her clitoris with the suction cup end of her tease n'please-her. She pressed the suction button and her clit was surrounded with the feeling of delicious oral sex as the tease n'please-her pulled, tugged, and milked at her swelling bud. Mmmmmm, she couldn't help herself – she moaned as the tease n'please-her sucked and vibrated between her legs. She couldn't control herself as she caressed the inside of her thighs with her free hand as her other hand was grinding her tease n'please-her against her.

She could feel her clitoris becoming erect with the intensity of pleasure. She could feel the pulse of her orgasm building deep inside her. She pressed the vibration button once more and that was all it took. She felt her body stiffen as a powerful orgasm hungrily roared through her body. The dual pleasures of suction and vibration had brought her to the pinnacle of fulfillment. She felt deliriously happy, incredibly relaxed and very, very sexually complete.

It's all about Her.

kegel train-her set™

waterproof · phthalate free · elite silicone™

SCALA nr. 22329

It was her little secret. She had started with the lightest kegel train-her almost two weeks ago and had worked her way up to the heaviest kegel train-her. At first, she was a bit nervous about inserting something weighted into her vagina. But the lightest kegel train-her didn't seem that heavy and she found that when she placed the soft silicone near her opening, it easily slid inside her as if it belonged there. She enjoyed the full feeling and intimate sensations when body responded to it, and the sexual dampness that sometimes occurred when she wore it.

She found herself craving the feeling of her kegel train-her inside her. Soon she had wanted the heavier weight of the medium kegel train-her. She was so excited that she almost couldn't sleep the day before she planned to wear it! She had worn it for almost a half an hour at various times during her week – right after her shower, while she shopped, during work, and even during her yoga class where she found herself becoming more and more aroused as it pleasingly shifted inside her with every new yoga pose.

And today marked day 14 of exercising with her kegel train-her, and the third time she had worn the heaviest weighted version. She couldn't believe how strong her vaginal muscles felt! It was as if she had a personal trainer for her vagina. She was looking forward to surprising her partner this evening when she forcibly milked his shaft over and over during sex play. She knew he would enjoy these new sensations as much as she would. She also knew that her kegel train-her set had given her would give her a brand new confidence in her sexual pleasure and performance. She planned to continue her kegel workout to keep her most intimate parts toned and tight. Self-care had always been important to her and now she could enjoy wellness inside and out.

It's all about Her.

g-spot stimulate-her™

SCALA nr. 22328

She referred to her G-Spot as her Goddess-Spot. When she had first tried to find it she wasn't exactly sure where it was located inside her vagina. But when she slipped her G-Spot Stimulate-Her inside herself the curved shape automatically pressed against her elusive G-Spot, and she had no doubts about its location after that. She pressed the warming function button to make her Stimulate-Her heat up to a comfy 104 degrees. The warmth felt good.

She used the remote control to turn on the quiet vibration. Wow. Both motors were strong and they excited her clit and G-Spot at the same time. The tickling vibration here was a new sensation for her and she amazed at how it electrified her senses. She pressed the remote control again to increase the intensity of vibration. Her eyelids fluttered as the pleasure inside her grew. She pressed again and again and enjoyed each of the unique sensations of the varying vibration patterns.

She had heard that it takes longer to reach a G-Spot orgasm so she took her time allowing the incredibly thrilling feelings to overwhelm her with pleasure. She felt her climax roll through her and felt strong contractions in her pc muscles and pelvic floor. It wasn't like anything she had ever felt before! Her orgasm seemed to go on and on and last for an eternity. Her body finally relaxed and she caught her breath, feeling more relaxed and fulfilled than ever before. Later, when she shared the remote control with her lover, she knew would find herself again feeling this incredibly unique pleasure. Oh yes, she would crave G-Spot orgasms. She was hooked.

vibrating roto suck-her™

swivel head · auto suction · multi function · elite silicone™

SCALA nr. 22325

The vibrating roto suck-her hugged the cleft between her legs with its soft, Elite Silicone suction cup. She swiveled the cup until it was firmly against the skin of her most sensitive region. When she gently pressed the 'S' button a suction tugged against her and caused a ripple of pleasure in her most intimate lips. She pressed the 'R' button to release the suction and found herself pressing 'R' over and over as it milked her clitoris and caused moisture to swell between her legs.

She gasped as her first orgasm ripped through her with a fierce intensity. She bit her bottom lip as she pressed the 'V' button to add vibration to her incredible experience. Yes, the pinpoint vibration tickled her clit and made her yearn for more. She pressed 'V' again and again as undulating vibration and pulsation patterns made her close her eyes and utter a scream of sheer pleasure.

Suction teasingly pulled at her moist opening. She could feel the exhilarating vibration all the way down her legs to her toes. She pulled the vibrating roto suck-her tighter to her soft mound and started to rock against it. She knew her second orgasm would be even stronger than her first. She cried out in ecstasy as her muscles tightened and the massive waves of her orgasm crashed throughout her body. She smiled. Her sexual awakening had just begun.

love thrust-her™

SCALA nr. 22326

She wanted to enjoy a good pounding. But she also wanted to be in complete control. She wanted an ultimate pleasure experience when she wanted it. That's when she decided it was time to enjoy some time for herself with her Love Thrust-Her, her ultimate companion which was always ready to grant all her intimate wishes.

She pressed the button to activate the warming mechanism. Mmmmm, she loved that it warmed up to a soothing 104 degrees. She used the locking suction cup to position her Thrust-her exactly where she wanted it. She slipped the slim shaft inside of her. Ah, it did fit her perfectly. She quickly pressed the button to start the thrusting. She started slowly but kept pressing until she found her desired thrusting force. She was happy her hands were free so she could play with herself as her Thrust-Her rhythmically beat her moist vagina.

She pressed another button to add arousing vibration. Yes, she wanted her Thrust-Her to pound her stronger and deeper, and she wanted to feel the vibrations throughout her entire sensitive erogenous zone. She pressed the vibration button again. She imagined her Love Thrust-Her gliding inside her harder and harder. She began to feel a wave building deep within her.
